

JULY NEWSLETTER

The team is growing!

Welcome Tr Sarah Nakimuli, who joined us in June and is a Supervisor in Shekhinah Learning Center. Looking forward to the great things that the Lord will do among us together.

Hello Netzah Family,

Welcome to our
Newsletter for
Term II, 2023.

Important days to note

*Term II ends on
25 July 2023*

*Term III begins on
28 August 2023*

*Half Term III
days will be
09 – 11 October 2023*

*Term III will end on
24 November 2023*

*Christmas Production
and Graduation,
25 November 2023*

Staff training

“Lead your life or someone else will,” Stephen R. Covey. In April we concluded “The 7 Habits of Highly Effective People” training series with Ps. Christine Mugabi who emphasized the importance of how to be a better person to oneself and to the community, by focusing on what is important, prioritizing, and sharpening the saw consistently.

In June Mr Danstan Kisuule the CEO of Y\$AV€ facilitated a workshop on financial literacy and management. He highlighted various key financial issues including valuing our money as much as we do our time, stewardship, budgeting well and sticking to budgets, not spending to impress, keeping track of income and expenditure, tithing, giving to God and others, saving and investing, among others. These sessions are open to parents/guardians of the school and take place every first Saturday of each month, as communicated.

Mr Danstan Kisuule

Parents prayer meeting

A family that prays together stays together. It was a privilege to have the parents tarry before the Lord on behalf of the School community, on the morning of 19 May 2023. It was a session of praise, worship, Bible reading and prayer for the students, families, staff and the community. It is important that the parents believe in and rally behind the Netzah vision and stand with the school in prayer, and we thank all who made time for this, as well as Mr Kinalwa for leading the initiative. It was the first of many more that will be held every term as we continue to pray and trust God together for everything that concerns our school and families.

Parents leading devotion

“As for me and my house, we will serve the Lord” (Joshua 24:15). It has been edifying to see our parents lead the students in morning devotions. They not only enjoy the dancing and singing during praise and worship but have also been able to learn how the students are taught the Bible. Thank you to the parents who have been able to make it this term, and more opportunities shall be availed for continuous similar engagement in student learning and growth.

Sports Day 2023

As much as we were excited about the first sports day at Netzah International School, the drama on the field was more hilarious! On 27 June 2023 the students participated in different activities like color sorting, sack race, bottle filling, relays, spelling, bed making and many other fun games. The activities unleashed competitive spirits, active minds, building motor skills, team work, empathy and many other skills the students shall use throughout their lives. And the parents came out in great numbers to cheer on and support them, amazing! We shall continue to nurture these abilities to ensure healthy bodies, and minds.

LEARNING CENTRE PROJECTS

Sweet Pea

The toddlers thank God for the various foods He made for us like bananas, maize, beans and many others. We know that these foods help us to grow strong and healthy, that is why for the term project we decided to make a food book. Thank you, God for the food!

Shekhinah Word search

A fun and great way for everyone to learn words, anywhere anytime. Whether it's memorization for spelling correctly, or for problem-solving skills, word search works to boost student's overall brain power.

The Abacus

This helps students understand the concept of place values in mathematics. One is able to visualize the meaning of places and internalize the grouping strategy behind it. The abacus can also be used to learn addition, subtraction, multiplication and division, enhancing mental maths and life skills.

Matter

In science, we have been learning about matter and how everything around us whether visible or invisible, is matter. We now know that matter is anything that occupies space and has weight. Did you know: human beings are the only matter that exhibit all the three states from being solids, to taking in and out gases to being filled with liquids?

Shammah

As Shammah class we picked interest in the Art center. As we learnt more about the good food that God created for us, we expressed this appreciation in art, drawing and painting using various colors, such fun!

God's world

We have been learning that the world was created in six days and on each day, something different and unique was made. The story culminates into the creation of man and woman on the sixth day, to rule over every creature that God made.

The Sunbeams favorite learning focus this term was the books and listening center where they explored new words and made a word book with pictures to which they ascribed names as they develop their vocabulary, self-expression, and confidence in reading and writing.

Spectrum

Spectrum class got to know how much transport is very important to daily life. For guess what, we would not be able to go to Church, move in the air and feel like a bird, move on water and say hello to the fish without transport. They explored the different types and means of transport, and what excitement there was when they learnt that they can actually go to the moon in a rocket! Further the class had fun with the various books in the listening center where the children were able to paste different means of transport and also name them correctly.

Reading is fun!

We all know how important prayer is in our lives, yet we wonder sometimes if it also supposed to be complicated? Seeing as this year our theme is "Persistent Prayer" here are some tips you should include in your prayer life.

First, when you pray speak to God like you would a friend. Tell him all that is on your heart and trust that it is well. Second, talk to God often and wherever you are, because He is everywhere! Then, God is not limited by time so make every effort to pray any and all the time because He listens at all times.

Sometimes our hearts are heavy, and that is okay. Even by just thinking your prayer through, God is hearing you. Pray with a friend or your family. God is able to hear all the prayers even at the same time, how great is that! As we pray let us not forget to thank him, say we are sorry for the things we have done wrong, and also pray for others. God hears our prayers. In our focus story book this term entitled "My very first prayers", students continued to learn about how important prayer is, and how we need to pray often, for ourselves and others too!

Holiday music program

The holiday music program is ongoing. It runs for three days a week, starting Monday, 31 July 2023. The fee is 50,000 per week per child, payable in advance and the program is open to non-Netzah students, ages 5 years and above. Time: 08:00am to 11:00am. Details available at the office.

*God bless you
and enjoy the holidays!*
